# IVGA CONNECT

IVGA CONNECT™ IS THE FIRST UNIVERSAL SOLUTION ALLOWING ANY OUTBOARD HD–SDI GRAPHICS SYSTEMS TO INTERACT OVER THE TRICASTERS IVGA NETWORK INPUTS.
THIS REVOLUTIONARY DESIGN ALLOWS THE REUSE OF ALL OF YOUR GRAPHIC ASSETS AND FACILITATES A SINGULAR WORKFLOW THAT TAKES YOU ALL THE WAY FROM THE "A-GAME", TO THE STREAMING MARKET.

IVGA CONNECT™ EMPLOYS THE HOST GRAPHICS SYSTEMS HD–SDI FULL BANDWIDTH KEY AND FILL OUTPUTS, WHICH GUARANTEES THE HIGHEST QUALITY IVGA CONVERSION. IN ADDITION, SINCE IVGA CONNECT USES THE ACTUAL HD–SDI SYSTEM OUTPUT, ALL OF THE ASSETS ASSOCIATED WITH SCENE ARE AVAILABLE OVER IVGA.

THIS MEANS YOU GET FULL "CLYP PLAYER" PLAYBACK, AS WELL AS "ON FRAME–BUFFER TRANSITIONS". IT IS TRUE WYSIWYG, WITHOUT LIMITING YOUR PRODUCTION TO PARTIAL ACTIVE "RENDERER–ONLY" BASED SCENE PLAYBACK.
